BRYAN CHAMBER OF COMMERCE MEETING!

MAYFIELD INJUNCTION SET FOR HEARING OCTOBER 16

Secretary Staples Enjoined Temporarily by District Judge at Corsicana From Certifying To Nomination of Mayfield for U. S. Senator on August 26.

(By Associated Press)

AUSTIN, Texas, October 5.—Notice that depositions will be taken on October 16, to be used at hearings at Corsicana on the temporary injunction restraining Secretary of State Staples from certifying Earle B. Mayfield as the democratic senatorial candidate was served today on Secretary Staples and Commissioner Mayfield. Notice was served at the instance of Luther Nickles, attorney for C. E. King petitioner for the injunction. Depositions will be taken from Atticus Webb, secretary of the Anti-Saloon League and ten others, citizens of different points in Texas. Secretary Staples has held up the certification of the names of democratic nominees for the general election on November 1, for a few days. The injunction petition alleges that Mayfield spent more than \$10,000 allowed under the law in the two campaigns.

BOYD GETS 20 YEARS IN NEBRASKA PRISON

County Attorney Minkert and Sheriff Morehead received a telegram Thursday from Nebraska City that G. W. Boyd alias J. W. Inglesby had been given twenty years in the penitentiary on criminal charges. Boyd resided in Bryan at one time and was arrested in San Antonio on complaint of Sheriff Morehead and taken to Nebraska for trial. It is stated there were several cases in Nebraska against Boyd and Governor Neff granted a requisition from the Governor of that state and Sheriff Morehead released Boyd.

STILLMAN DIVORCE CASE NOW PENDING

(By Associated Press)
WHITE PLAINS, N. Y., Oct. 5.—Supreme Court Justice Morschauer today reserved decision on application for confirmation of the report made by Referee Gleason in the Stillman divorce case. He announced he would make the decision known before Friday. He added he was ready to confirm the report, but counsel for Mrs. James A. Stillman had asked him to take his time so if Stillman carried case to the Appellate division it could not be stated that the report had been confirmed without careful study of it and the evidence.

GREEKS NOT PLEASED WITH PEACE TERMS MUDANIA CONFERENCE

(By Associated Press)
SMYRNA, October 5.—The agreement which has been reached at the Mudania conference between allied and Turkish delegates according to messages here was communicated to the Greek delegates. They expressed dissatisfaction and declared themselves not empowered to reply must have instructions from Athens. The messages say agreement provides allies and Turks are to evacuate neutral region of the Dardanelles. The Allies will continue the occupation of Constantinople during the peace conference they accept the re-establishment of national civil government departments at Constantinople and Chanak.

JURY IN ONIE WHITE CASE WAS SECURED

The jury in the Onie White murder case, who is charged jointly in an indictment with Horace White, charging the murder of Dr. Bev Harrison in 1918 in Grimes County and sent to Bryan on a change of venue was secured in the Brazos County District Court for the trial of the case now on trial is as follows: C. H. Andrews, J. R. Brownless, D. Paul Dansby, E. J. Fountain, J. M. Weedon, H. T. Downard, M. P. Elliott, T. E. Bullock, L. B. Thompson, R. E. Jones, J. M. Bond and J. L. Holligan. The testimony in the case will probably close this afternoon and the charge of Judge Davis will follow and then the arguments will be made by the attorneys to the jury tonight or Friday morning.

ALLEN TEAM IS NOW ROUNDING IN SHAPE

(By C. S. Beckwith).
The weather man has sure smiled upon the foot ball activities at Allen Academy, not once since the hard grind of foot ball preparation began has he interfered. Coaches Moore and Hudson have taken off the rough edges and are putting on the finishing polish and by Friday they will be ready for the fast and well coached Southwestern University Reserves. The reserve squad of the Southwestern is one of the best they have had in years and the foot ball fans who will witness this game will see two coached and balanced teams in action. The athletic department is putting forth every effort to make the patrons comfortable. They have erected new grand stands for which there will be no extra charge. In past years the seating capacity at Allen athletic field has been limited, but this year provisions have been made to take care of the people. The dengue fever and accident has made their appearance in the foot ball squad. Fred Pearson and Eddie Fosch are in bed with fever. Satterwhite, Virgil Roger and Thornham are out thru accident. The possibility of Satterwhite being in the line seems to be bright at this writing, but if he is not, there are abundance of reserve material to select from. The fans want good foot ball. Coaches Moore and Hudson are putting their all in the team and a good game is assured.

RED CROSS WEEK FOR BRAZOS CO. OCT. 9-15

The Brazos County Red Cross has designated the week of October 9th. to 15th inclusive as "Gift Week," during which time the financial budget for the expenses of the local chapter work for the coming year will be raised. During the term of the World War Brazos County contributed liberally to the work of this organization, as it stood for the care and maintenance of the boys from our homes who had gone to the front to battle for the freedom of the world. The War is now over, but it left its mark upon our boys, their homes, their families and loved ones. and the Red Cross, has promised to "Stand" with them to the end, taking as its slogan, "Finish the Job." No chapter in the Southwestern Division has made a greater record for work with exservice men, than the Brazos County chapter, and the "Job is not yet finished." Beside its post-war work, the Red Cross has projected for the coming year a Health Program in Brazos county, which is vital and far reaching in its influence. Benefits from the work of the Red Cross public health nurse are evidenced already in schools all over our county, in homes, in living conditions and the general health of communities, and rural.

"The poor ye have with you always," and to such, the needy, the troubled and distressed, the Red Cross is always, mother and friend. The work of charities, of social service, of up-lift and helpfulness is never ended in the office of the Brazos County Red Cross, and that this organization is meeting the needs in this particular work, is most gratifying. The people of Brazos County are realizing what the Red Cross means to this county, and a "Gift Week," has been designated to meet its financial needs for the coming year.

CATTLEMEN IN BRYAN
W. V. (Bud) Hunt of Georgetown and S. B. Smith of Iowa, are here as witnesses in the Onie White murder case. Mr. Hunt is a large cattle buyer and an intimate friend of Col. Ace Hufetutler, of Georgetown, and Col. Kelson Howell, of San Antonio and Fort Worth, and who buys more hogs in Brazos County than any other buyer for Howell Bros. Commission Company of Ft. Worth. Messrs. Smith and Hunt were visitors of the Eagle office.

Mrs. W. B. Bizzell and her daughter, Miss Elaine Bizzell, were among the Bryan shoppers today.

Texas A. & M. College Budget To Be Discussed at Austin

AUSTIN, Texas, Oct. 5.—Presidents of the various state normal schools have been notified to be in Austin on October 10, to present their budget requirements to the state board of control, which is now preparing the appropriation requisitions for the next legislature. On October 13, the board will hear the Agricultural and Mechanical College group and the College of Industrial Arts about October 16, with the University of Texas last, at a date yet to be fixed. The Agricultural and Mechanical College group includes the Agricultural and Mechanical, the Prairie View Normal, Grubbs Vocational College, the John Tarrion Junior Agricultural College at Stephenville, the state forestry department, the chief agricultural experiment station and the various sub-stations located at different points in the state. S. B. Cowell, chairman of the board, said today that the effort will be made to complete the budgets by November 1, and print them so they will be in the hands of members of the legislature at least 30 days before the session begins. He also said that every effort will be made to complete the departmental and eleemosynary budgets between now and October 10. With departmental, eleemosynary and judiciary out of the way the board would have the educational institutions remaining.

The Bryan Chamber of Commerce board of directors met Tuesday morning, President W. H. Cole presiding and Secretary S. E. Eberstadt at the desk. It was decided after a general discussion that a meeting of the joint College and Bryan committee meet on Thursday night at 8 o'clock. Members of the committee for College Dr. F. C. Bolton, T. O. Walton, E. O. Seicke and E. B. LaRoche. Bryan committee: Jno. M. Lawrence, Lee J. Rountree, H. O. Boatwright, W. S. Higgs and J. Webb Howell. Sam B. Wilson, Robert Armstrong and W. H. Cole. President Cole was authorized to call a meeting at the same time and Secretary S. E. Eberstadt was directed to notify all committees and directors of the meeting. This action was prompted by a report made by Hon. F. L. Henderson to the board which was discussed by Mayor Tyler Haswell, City Manager E. E. McAdams, President Cole, J. Webb Howell and others.

Present at the meeting were the following members: W. H. Cole, Tyler Haswell, J. Webb Howell, F. L. Henderson, T. K. Lawrence, Oak McKenzie, E. E. McAdams, Lee J. Rountree, M. E. Wallace, D. L. Wilson and Secretary S. E. Eberstadt. Visitor Kay Halsell, who recently moved to Bryan from Gainesville, who made a brief talk expressed his appreciation of being able to visit the Chamber of Commerce.

Dr. W. B. Bizzell, president of A. & M. College, stated that he had made the appointment of a joint committee to act with the West Texas Chamber of Commerce and the citizens of West Texas in drafting a bill to co-ordinate the agricultural school interests of Texas and had selected the following: Lee J. Rountree and Judge W. C. Davis of Bryan, and Col. E. B. Cushing of Houston, to act with President A. B. Spencer, Senator W. H. Bledsoe of Lubbock and Representative R. M. Chitwood of Sweetwater. This action was taken at the recent meeting in Dallas, Dr. Bizzell said and that he expected great good to come out of the movement.

Mrs. J. H. Maloney has returned from Houston, where she and Mr. Maloney spent the summer with her mother.

Miss Belle Garner went to Waco today for a visit with friends. She expects to return to her home in this city on Friday.

TWO MURDER CASES SET BRAZOS COUNTY DISTRICT COURT

The criminal docket of the Brazos County District Court was called Monday morning by District Judge W. C. Davis and County Attorney J. G. Minkert represented the state. Quite a number of attorneys representing the defendants were present in court. The grand jury through Foreman O. L. Wilcox made its final report Friday and was discharged for the term by Judge Davis. There were thirteen indictments returned ten felonies and three misdemeanors. The grand jury took occasion to say that the officers had been diligent in the discharge of their duties and there was no crime wave in Brazos County. There are two special venire cases on the docket, the first being Horace and Onie White, charged with the murder of Bev Harrison in Grimes county and sent to Brazos county on a change of venue and a special venire of 150 men, has been summoned and the case is set for Wednesday, Oct. 4. The other special case is that of George Jackson, colored, charged with killing his wife, Minnie Jackson, June 19 and this case has been set for trial for October 12 with a special venire of 75 men. The grand jury returned the indictment and Justice J. W. Hamilton refused Jackson bail on a preliminary hearing and Judge Davis on habeas corpus hearing refused bail also for Jackson on the charges.

Criminal Cases Are Set
The following settings were made by Judge Davis on the criminal cases: Tuesday, October 3, Juan Barone, theft of horse, and John and Fannie Holland, manufacture of intoxicating liquors. Wednesday, October 4, Horace and Onie White, murder of Dr. Bev Harrison, change of venue from Grimes County. Monday, October 9, W. G. McNutt, transporting liquor and Pearlina Ward, assault to murder. Tuesday, October 10, Sam Palermo, transporting intoxicating liquor. Wednesday, October 11, K. C. Carpenter. Thursday, October 12, George Jackson, murder of his wife, Minnie Jackson.

Grand Jury Report
TO HON. W. C. DAVIS, Judge of Brazos County District Court:—We the grand jury duly impaneled at this the September term of said court, 1922, respectfully submit the following final report:

- (1) We have been in session for six days, and have made a careful investigation of all violations of the law that have come to our knowledge, and find that there have been very few violations of the law, within Brazos County during the last several months.
- (2) We have visited the jail and find it in good sanitary condition.
- (3) Have returned into court thirteen indictments, ten of which charge violations of the felony statutes and three for misdemeanors.
- (4) It is the opinion of the body that Brazos county has not suffered from a crime wave as reported in many of the larger cities, but that moral conditions in this community are excellent.
- (5) The officers and bailiffs have been prompt in the execution of process, and as a rule the witnesses who were summoned have responded promptly.
- (6) We find that the present system of trying all misdemeanor cases, not within the jurisdiction of the justice courts, in the District Court, is expensive and impracticable, and recommend that steps be taken to procure an act of the legislature restoring jurisdiction both civil and criminal to the County Court.

O. L. WILCOX, Foreman.

COTTON CROP LOSES HEAVILY DURING THE MONTH OF SEPTEMBER

(By Associated Press)
WASHINGTON, October 3.—Reduction 440,000 bales during September in the prospective cotton production this year was shown in the department of Agriculture forecast to day and placed the crop at 10,135,000 bales. The condition is 50 percent normal for Texas the forecast is 3,412,000 bales, and condition is 52 percent.

Mrs. Lilla Graham Bryan and her daughter Lilla Graham, Mrs. Hal A. Saunders and Miss Allie Conway, left early this morning by automobile for Dallas, where they will visit friends for the week-end and attend the Dallas Fair.

Miss Martha Rivers Allen entertained the Junior Bridge Club on Wednesday afternoon from 3:30 to 5:30 o'clock at the home of her parents Mr. and Mrs. R. O. Allen on Ursuline Avenue.

RAILWAY SHOPMEN CLAIM GOVERNMENT'S BAD FAITH

Shopmen' Attorney Appears Before Judge Wilkinson and Attacks Attorney General Daugherty In Strike Injunction Cases Granted at Chicago Recently.

(By Associated Press).

CHICAGO, October 5.—Donald R. Richberg, attorney for railway shop crafts appeared before Judge Wilkerson today and accused the Department of Justice of lack of good faith in the proposal to expedite the final disposition of the injunction case against railway strike leaders. He declared he and his associate counsel had held a very unsatisfactory conference with Solicitor General Beck after a futile attempt to see Attorney General Daugherty at Washington with reference to an early and final hearing or a review of the interlocutory injunction handed down by Judge Wilkerson on September 25. Richberg said the department threatens to make the burden of defending an oppressive and expensive as possible. The defendants are entitled to a hearing before the three judges, Richberg said. Attorney General Daugherty refused to file certificate which would notify the circuit judges the case should be assigned for hearing before at least three of them he said. He asked the court that such notification be given and Judge Wilkerson took the question under advisement. Counsel for striking shop crafts were given another twenty-four hours to file answer to the government suit for a nation-wide injunction.

PETIT JURORS FOR BRAZOS COUNTY COURT

Below is the petit jury for the fourth week of the Brazos county district court for the week beginning Monday, October 9 as furnished the Eagle by Sheriff L. E. Morehead: F. T. Cole, Rube McDonald, J. R. Fain, Paul McSwain, Will Murphy, J. B. Christian, Jim Lloyd, Chas. Merka, Jesse Huggins, W. N. Wilson, Sam B. Wilson, S. W. Buchanan, W. H. Hunter, C. L. Eden, J. L. Todd, R. S. Mawhinney, R. V. Cole, J. H. Lenard R. R. Shaw, C. L. Beason, Chas. Payne R. L. Brogdon, J. L. Edge, J. L. Sample, Roy Vick, S. M. Bond W. J. Coulter, Ernest Thompson, M. S. Broach, S. H. Smith, P. S. Goen, J. O. Maniard T. C. Elliott, J. L. Burt, W. P. Neddalek and M. B. Parker.

SHERIFF MOREHEAD CAPTURES AN AUTO

Sheriff L. E. Morehead on Wednesday night captured a Dodge automobile which was said to have been stolen in Houston. Sheriff Morehead got the car from a man on the Bryan Wellborn road near College and the driver said he was on his way from Houston to Dallas. The car will be returned to the owner in Houston.

Mrs. Robert Armstrong and Mrs. R. O. Allen went to Dallas today for a few days visit with friends and to enjoy the Dallas Fair.

MRS. SPARKMAN HOME FROM SOUTH AMERICA

Mrs. C. F. Sparkman, formerly of College and Bryan, arrived from Peru Wednesday from Puno, Peru, where she has been head of the department of English and physical education in Colegiado San Carlos. Dr. Sparkman is still minister to examination of Lima, Peru. Mrs. Sparkman expects to make her future home in Bryan. An interesting article will appear in the next few days. Mrs. Sparkman left Peru because of the collapse of the finances of the country. Mrs. Sparkman demanded her money for services rendered and left the country. The American Commissioner of Education in Peru no longer exists and the work is a joke, Mrs. Sparkman says. In spite of the fact Mrs. Sparkman met with courtesies from the upper classes she says she is not impressed with the general trend of affairs. Mrs. Sparkman says after an experience of two years, declares that the English speaking people are the only people now doing real things to rehabilitate the world. The American government is doing a great work all over South America.

Executive Assistant A. D. Jackson of the Texas Experiment Station at College, was in town Thursday and called on the Eagle. Col. Jackson now has a full set of new teeth and steps around livelier than he did two weeks ago when he visited the dentists chair everyday.

Chester Higgs is suffering with an attack of dengue fever at the home of his parents, Mr. and Mrs. Walter J. Higgs on North Tabor avenue.

Committee on Branch College of Agriculture in West Texas

(By Associated Press).

DALLAS, October 4.—Recommendations concerning a proposed West Texas Agricultural and Mechanical College are expected from a special committee of educators and members of the legislature. They will meet in Fort Worth soon to consider their program. The committee was appointed at a recent meeting of residents of East, West and North Texas here. The fundamentals of a statewide program more or less in line with a plank in the democratic state platform were agreed upon at the meeting. A committee of legislation, composed of A. B. Spencer, president of the West Texas Chamber of Commerce; Lee J. Rountree, representative from Brazos county; Judge W. C. Davis of Bryan; Col. E. B. Cushing of Houston; W. H. Bledsoe, state senator; Lubbock county; R. M. Chitwood, representative from Nolan county; and Col. R. L. Penick, of Jones county was appointed at the suggestion of Dr. W. B. Bizzell, president of A. & M. College. There has been considerable discussion and difference of opinion about an agricultural and mechanical college for West Texas. The Texas A. & M. College is at College Station, a few miles from Bryan. West Texas has asked that it be given a similar institution. Differences of opinion have developed whether the proposed school for West Texas be strictly an agricultural institution, or teach both agriculture and mechanics, and whether it should be under the control of the present Texas A. & M. authorities, or a separate institution. Some West Texans demand an agricultural and mechanical school, free from the present A. & M. College. The democratic platform at San Antonio on the question said: "Feeling that adequate and essential educational facilities should be provided without discrimination in every section of Texas, therefore, we urge upon the thirty-eighth legislature, a branch agricultural college in West Texas under the direction of the board of directors of the Agricultural and Mechanical College of Tex. and closely coordinated with the parent institution at College Station." This plank was offered by Representative Lee J. Rountree of Brazos county. He believes that following its recommendation will solve the controversy satisfactorily that has been agitating Texas politics for years. The special committee is expected to agree upon a definite program to submit to the legislature in January.

TO REMOVE SHERIFF OF EASTLAND COUNTY

(By Associated Press)
Eastland, October 5.—A suit seeking to have Sheriff Sam Nolley removed from his office has been filed in the District Court here. The relators are members of a committee appointed at a mass meeting on Sunday. The petition alleges Sheriff Nolley was negligent in the discharge of duties and allowed law violation in Pioneer.

EAGLE CARRIES HOME NEWS

The Bryan Daily Eagle ran nine solid columns of College, Bryan and Brazos County local news in Monday's issue. This is more local news than the average big daily newspaper runs. The big papers charge ten times as much for advertising as the Eagle does and it costs the same money to produce the goods. Think it over.

Read all Eagle advertisements.

BRYAN WEEKLY EAGLE

Entered at the postoffice at Bryan, Texas, April 28, 1911, as second class matter under act of congress March 3, 1879.

LEE J. ROUNTREE, Managing Editor

TEXAS DEMOCRATIC PLATFORM IN FLOOD WATER CONTROL

The Dallas-Garveston News is criticizing the democratic state platform for not making a stronger "demand" on the Texas legislature to pass appropriation beyond the call for a hydrographic and topographic surveys of the Texas Rivers, the Brazos, Colorado, Trinity and others. The News wanted the platform to "demand" that the state bear certain expenses of reclamation of low lands and impounding of flood waters. In the caucus at San Antonio of those who have been working on the project for sometime Hon. Leonard Tillotson, president of the Texas Flood Conservation Association was asked to prepare the plank for the platform. He had been active in the passage of the constitutional amendment in 1917 and was familiar with the work. At the suggestion of Senator Holbrook, of Galveston, Representative Rountree of Brazos, the words "we favor special and general laws for flood conservation" in Texas were added by the sub-committee on platform and President Tillotson objected to the word "demand" along the lines suggested by the News. The question of flood control, irrigation, impounding of waters and reclamation in Texas is a new question comparatively because of the fact that Texas kept the title in her own public lands when she came in the union in 1846. Other states with arid lands and flood waters appealed to the federal government because of the fact that their lands were owned by the federal government. The question is a grave and serious one and will demand legislation based upon deliberate study because our section of Texas denies districts and another desires a state-wide movement. The News is correct if the question can be settled that way and President Tillotson accepted the modified views of Senator Holbrook and Representative Rountree and the plank will be found to cover the great question as it will go to the Texas legislature for action in January. Of course nobody can get a platform that suits everybody and is a panacea for every calamity. But Texas is on the right road and the News is doing a great service for the success of the most important movement inaugurated in Texas in a generation.

A little boy down at Millican (who is a great admirer of Mr. Beason and sits up on the back of the seat when he speaks) says Mr. Beason is wonderful as he eats so much it makes him thin to carry it.

County Agent Beason failed to attend the Brazos County Poultry Association meeting Monday night. Of course he knew there would be nothing there to eat or he wouldn't have been about an hour or two sooner.

Remember the dates of the Brazos County Poultry Show at Bryan, December 6, 7 and 8. Don't forget it.

ATTEND DALLAS CONFERENCE. Director T. O. Walton, Dr. E. P. Humbert, Lee J. Rountree and others left today for Dallas to attend the statewide boll weevil and pink boll worm conference called by the Texas Chamber of Commerce, A. and M. College, State Department of Agriculture and other organizations.

J. H. and Oscar Wilcox, of Tabor, were here today.

Ted Cook, a prosperous farmer, of Steep Hollow was greeting friends here today.

Styler to the Minute!

The latest "keynote" in men's Fall and Winter Shoes is "Stitched-effects."

This smart Ralston model not only smacks of the newest vogue in style treatment—but is made of the genuine Creese & Cook's famous Tony Brown Spartan calf, one of the world's best leathers. When combined with Ralston skill and workmanship the utmost in value results, and at a fair price, well within the reach of all.

A HOME INSTITUTION

PRIZES AWARDED AT TABOR CLUB FAIR

(By S. C. Hoyle.)

The Fourth Annual Community Fair, held under the auspices of the Tabor Welfare Club of Brazos County, at the Tabor high school, September 29 was a remarkable success.

The weather was ideal and crowds gathered from every section of the county and many visitors were also present from surrounding counties. College and Bryan were well represented and a sea of automobiles surrounded the grounds at an early hour. Secretary Sam E. Eberstadt was there with his usual smile and spirit of willingness to help. In fact Sam is a factor in the development of the Tabor Community Club and is one of their most enthusiastic boosters. Prof. J. H. Kraft of the Vocational Work at the A. & M. College was on the grounds, as also were Prof. W. E. Garnett, Prof. J. B. Oliphant, Prof. P. K. Whelpton, District Agent, A. W. Buchanan, County Agent C. L. Beason, Home Demonstration Agent Laura Bell Roten, R. W. Persons, and a host of others who have devoted their time and energies to the educational feature of the Tabor Community. The Tabor Community Fair was organized for the purpose of advancing the interests of the people of the surrounding communities and to encourage intelligence and efficiency in agriculture, stock raising and home-making under the direction of the following officers: Mr. C. E. Locke, president and General Manager and Miss Edna Harris, Secretary. Executive Committee, Mr. J. L. Cobb, Miss Mary Locke, Miss Susie Benbow, Mr. J. H. McCallum, Mr. Walter Armstrong, Mr. G. M. Ammons, Mr. C. A. Locke, Mrs. George Wilson and Mrs. Roland Crenshaw. These efficient officers were amply rewarded for their untiring efforts by the character of the exhibits and the enthusiastic crowd which gave testimony to their appreciation by their participation in the activities. The school house had been decorated with a green and red color scheme which made the rooms exceedingly attractive and pleasant while the exhibits were arranged with a taste and neatness which demonstrated the touch of a woman's hand. Music was furnished by Mr. H. McKinney on the piano while a string band composed of Isiron Lloyd and son, Hiram, J. L. Green and Mr. Conn, of Bryan, furnished music which made a number of men cut the pigeon wing and try the shuffle of their youth. The Red Cross, under the direction of Mrs. Albert Buchanan had a neatly arranged booth showing a number of charts while scales and appliances for giving the height and weight of the babies were kept busy by enthusiastic mothers. The display of a home made dress form in the display arranged by Miss Roten, Home Demonstration Agent, was the center of attraction while the needle work, articles of wearing apparel, canned and preserved goods of the women and club girls were admired by a constant stream of visitors. The agricultural displays would be a credit to a state fair while the livestock was evidence of much progress in livestock production in the community. There were fine mules, draft horses, good cows, calves and beef animals, while the poultry was among best. Then came the dinner. Ah, how these Tabor ladies can cook. The table was loaded down with good things to eat and everybody enjoyed themselves to their full capacity. There was fried chicken, chicken pie barbecue, a variety of cake and pie of every description and a quantity of other good things too numerous to attempt to mention. Somebody lost money on that dinner and it was not Ed Crenshaw, Roy Hudspeeth Lawrence Parker, T. K. Lawrence Houston Cole, Rev. King Vivion, Rev. L. Brown or any of the Bryan or College participants. For once in a lifetime Sam Eberstadt, C. L. Beason, Ed W. Crenshaw, Will Gibbs and a host of others kept quiet and had nothing to say but they were working havoc with some body's chickens and getting outside of a quantity of barbecue. The staple crops, feed crops, livestock products, fruits and vegetables were well represented and were worthy of the prizes which were awarded as follows: The Directors of the General Farm Exhibits were Walter Armstrong, Chairman, J. W. Harris and Nat Harrison. In this department, W. H. Benbow received the \$15 cash for the best display of farm products prepared by score card, J. W. Harris won second prize which consisted of \$10 in merchandise; F. M. Nichol secured the third prize of fertilizer valued at \$7.50, while F. W. Locke won the fourth prize of \$5.00. Mrs. J. L. Sample won the first prize of \$1.00 and Mrs. Chas. Pressnal the second prize of fifty cents for the best pound of butter. J. W. Harris won the \$1.00 prize and T. J. Abbott the fifty cent prize for the best six stalks of ribbon cane. Joe Locke received the \$1.00 cash prize and T. J. Abbott the fifty cent cash prize for the best peck of sweet potatoes.

Corn Department:—W. H. Benbow, first prize, \$2.50, W. H. Benbow; second prize, \$1.50, Walter Armstrong; Best 10 ears Yellow Corn: First prize, \$2.50 J. L. Cobb; second prize, \$1.50, Bob Francis. Cotton Department:—J. H. McCallum, manager, Best 3 stalks of cotton, first prize, \$6. C. C. Brinkley; second prize, \$1.50, Jim Hughes. Best 2 pounds Cotton Staple. First prize, \$2.50, Jim Hughes; second prize, \$1.50, John Whitten. Boys' and Girls' Agricultural Clubs:—C. L. Beason, manager, Best Corn, First prize, \$5.00 cash Julian Cobb; second prize, \$2.50, Cecil Brinkley. Best cotton: First prize, cash \$10.00 (staple judged) Ezra Bozeman; second prize \$2.50 Winnie Harris. Best Poultry. First prize: \$5.00 cash, Ben Frank Ammons; second prize, \$2.50, Ezra Bozeman. Best Pig. First prize, registered pig, Curtis Cobb, second prize, \$2.50, Annie Lock. Horses and Mules:—Willis Edge, manager. Best work team (Mules):—First prize, \$2.50, Frank Nichols; second prize, \$1.50, Wm. Hudspeeth. Best Work team (Horses): First prize, \$2.50, John Smith; second prize, \$1.50, J. W. Harris. Best Mule Colt under one year: First prize, \$2.50, F. W. Locke. Best Horse Colt under one year: First prize, \$2.50, J. L. Cobb. Best yearling mule colt. First prize, \$2.50, John Walker. Best brood mare: First prize, \$2.50, John Smith; second prize, \$1.50, John Walker. Cow Department:—B. N. Francis, manager. Best Dairy Cow (dairy type): First prize, \$4.00, E. M. Francis; Best Bull (dairy type), \$3.00, J. L. Sample. Best yearling (dairy type), First prize, \$3.00, E. M. Francis; Best cow (dairy type): First prize, \$4.00, Julian Cobb. Best bull (beef type): First prize, \$3.00, E. M. Francis. Poultry Department:—Miss Mary Locke, manager. Best pair bronze turkeys: First prize, \$2.50, Fritz Schidt. Best pair Bourbon Red Turkeys: First prize, \$1.50 Clyde Wilson; second prize, \$1.00 John Watkin. Best pair Holland Turkeys: First prize, \$1.50, Lynn Sample; Second prize, \$1.00, J. W. Harris. Best trio, S. C. White Leghorns: First prize, \$2.00, Emmie Bozeman; Second prize, \$2.00, Bob Frank Ammons. Best trio Barred Plymouth Rocks: First prize, \$2.25, Elmer Elliott; second prize, \$1.00, Fannie Locke. Best trio Rhode Island Reds: First prize, \$1.90, Mrs. W. H. Benbow; second prize, \$1.00, Mrs. J. Harris. Best trio White Wyandottes: First prize, \$2.00, Mrs. F. W. Schidt; second prize, Mrs. Box Francis.

Canned Goods Department:—Mrs. J. I. Locke, manager. Best 12 jars of Canned fruit: First prize, \$5.00, Mrs. J. L. Sample; second prize, \$3.50, Mrs. W. H. Benbow. Best jar of Cucumber pickles: First prize, 75 cents, Mrs. Ben Francis; second prize, 50 cents, Mrs. C. E. Locke. Culinary Department:—Mrs. J. L. Cobb, manager. THE SMETANA SCHOOL OPENED ON MONDAY

The Smetana Consolidated School began its 1922-23 session Monday morning with an attendance of 120 pupils. After singing "America" Prof. J. Haisler made a talk of welcome to the pupils followed by remarks from Miss P. A. Tardy, Miss Mary Hyler and Miss Minnie Cahill the teachers and Prof. Chas. Evans the vocational instructor. The students all expressed enthusiasm for the school as great interest is being taken in it by the pupils and patrons. Prof. Evans, the vocational instructor or will be at the school three days during the week.

J. W. Rawls and Henry Shows, of Thompson Creek were among the out of town visitors here today.

Amaze Your Friends With Your Complexion

Do you want a clear fresh glowing skin—free from even the slightest trace of pimples or blackheads? You can have it easily. And so quickly that your friends will be amazed at the change in your appearance. Simply take Ironized Yeast—two tablets with each meal. Then watch the results. Before you know it, every pore and blackhead will have disappeared and you will have a clean, youthful velvety skin—the kind that is envied by everyone. Ironized Yeast supplies your system with certain vital elements now lacking in your food—the very elements needed to keep your skin beautiful. You won't believe what a wonderful change it can bring in your complexion until you try it. Get it from your druggist today or mail postcard for Famous 3-Day FREE Test. Address Ironized Yeast Co., Dept. 99, Atlanta, Ga. Ironized Yeast is recommended and guaranteed by all good druggists.

Ironized Yeast is sold and recommended by all good drug stores, such as the James Drug Store.

ONIE WHITE ON TRIAL FOR MURDER OF BEV HARRISON

Cases of Horace and Onie White Secured—Jury is Being Empaneled Before Judge Davis—Large Crowds Are in Attendance on the Opening Scenes of the Trial.

The cases against Horace and Onie White, of Grimes county, charged with the murder of Dr. Bev Harrison, in 1918, were called in the District Court by Judge W. C. Davis Wednesday morning. By agreement the cases were severed and Onie white announced through his attorneys that he was ready for trial. The state and defendant attorneys both announced ready. The state is represented by County Attorney J. G. Minkert and Judge T. P. Burdington of Anderson and the defendant by Attorneys A. E. Berry of Houston and F. L. Henderson of Bryan. A special venire of 150 men had been summoned to secure a jury of 12 to try the case and after various excuses as they were called by Sheriff L. E. Morehead and the oath being administered by District Clerk J. W. Barron instructions were given by Judge Davis that the attorneys begin the work of securing the necessary 12 jurors. The defendant, Onie White, sat in the courtroom accompanied by Mrs. White and three small children. There were a large number of people present from Grimes and Brazos counties. The case came to Brazos county on a change of venue from Harris county, having been sent from Grimes county to Harris county. At a former trial in Bryan Horace and Onie White were given 20 years in the penitentiary by the jury and the case was reversed by the Court of Criminal Appeals at Austin.

BRYAN COMMERCIAL NEWS

CONFERENCE IN DALLAS ON BOLL-WEEVIL MENACE

Fifteen Leading Organizations in Texas Join
Texas Chamber of Commerce, Texas A. & M.
College and Farm Bureau Federation in the
Work of Preventing Further Great Losses.

(From Dallas Times-Herald.)

Immediate steps to check the boll weevil menace by plowing under cotton plants as soon as picking is completed will be advocated by the representatives of farming, business and educational interests of Texas who convened in Dallas Saturday. The conference, called by James Z. George, vice-president and general manager of the Texas Chamber of Commerce, authorized him to appoint a central committee which will direct the efforts to have the state use this method in fighting the boll weevil. George B. Terrell, state commissioner of agriculture; T. O. Walton, director extension, Texas A. & M. College; Walton Petet, secretary of the Texas Farm Bureau Federation; Dr. W. D. Hunter of the Federal Horticulture board; Lee J. Rountree of Bryan; C. L. Davis of the state department of education; J. H. Johnson, representing the cotton seed crushers of Oklahoma, and W. E. Anderson, State entomologist of Louisiana, and other leaders in their respective lines of endeavor joined in the round table discussion. The following recommendations submitted to the gathering of more than fifty men, were unanimously indorsed: "First: That this conference declares its belief that boll weevil damage can be greatly reduced by plowing under cotton plants immediately after picking, thus cutting off the food supply of the weevil before the period of hibernation at a time when it cannot subsist more than six days without food. This method of control will not only reduce the losses now suffered, through weevil damage, but conforms to good agricultural practice and will put land in good condition for giving crops an early start in the spring. This practice has also been demonstrated as the best method of control of cotton root rot, which is rapidly increasing in the state, and unless checked will soon rival the boll weevil as a cause of loss.

Commission To Act

"Second: That this conference create a general committee or commission to carry out these recommendations, and that this committee consist of representatives of all statewide organizations connected with or directly interested in the cotton industry, and this committee be invested with full authority to initiate and carry forward a state-wide movement for the early destruction of cotton plants and the adoption of other proven efficient means of farm sanitation.

"Third: that we call upon the Texas Chamber of Commerce and local and sectional chambers of commerce, the Texas Bankers' association, the Texas Farm Bureau Federation, the Texas Cotton Seed Crushers' association, the Texas Industrial Congress, the Texas Press Association, the Texas Retail Merchants' association, the Texas Wholesale Grocers' association, and all other agencies, organizations or interests concerned in the agricultural welfare of the state, to aid in carrying forward this important undertaking.

"Fourth: That we direct the committee provided for herein to communicate our action to the agricultural officials and leaders in other cotton-growing states and suggest similar action in all states.

"Fifth: That the chairman of this conference appoint an advisory technical committee consisting of one representative of the Texas A. & M. College, the Texas agricultural experiment station, the federal horticultural board and state department of agriculture, to pass upon the practical merit of the methods of control to be advocated by the committee provided for herein and in conformity with this resolution.

"Sixth: That we commend the Texas Chamber of Commerce for its public-spirited action in calling this conference, and that we call upon it to continue its work in this behalf with the committee appointed by this conference.

"Seventh: That the chairman of this conference appoint a special committee of three members to work with the Texas Chamber of Commerce in constituting the general committee provided for herein, and that pending the appointment and organization of the general committee that this special committee take immediate steps to carry out the plans of this conference.

"Eight: In conclusion, this conference, representative of the agricultural and business interests of Texas, after a careful survey of the factors influencing cotton production, declares its belief that the unchecked ravages of the boll weevil is a menace so serious as to threaten the profitable production of cotton, and unless checked this important industry

BRYAN HAS WEIGHED 14,991 COTTON BALES

The Brazos County Cotton crop is as the term applies "on its last legs" and the staple is now coming in slowly. The present week with dry weather will about close the picking season with some isolated farms where cotton is still in the fields. The following is the amount of Cotton weighed at the several places: Bryan up-to-date: Farmers Union Warehouse 5,055 bales Parker Warehouse 4,478 bales; Eden Gin 549 bale (square), 217 bales (round) Bryan Figs Co., 4,700 bales. Total in square bales 14,991.

KURTEN NEWS ITEMS

(Special to The Eagle.)

KURTEN, Texas, Oct. 4.—The farmers in our part of the county are just about through gathering their crops, some few people have a little cotton to scrap but most farmers have their stock running in on their fields to destroy the boll weevil if there are any.

Health in our community is fairly good, so far we have been lucky and escaped the dengue fever.

A number of people from Kurten attended the singing convention at Reliance last Sunday.

Julius Plagens is up from Goose Creek visiting friends and relatives.

Ed Plagens and Arnold Stevenson left for West Texas to pick cotton. We wish them much success and that they will find much cotton to pick.

W. M. Metzger was visiting at the Gurley plantation last Sunday and on Tuesday he and Jno. Sabo motor ed to Bryan.

Henry Plagens is in Houston on a business trip.

Mrs. Kate Blum is in Hempstead north after her farm, eleven miles north of there.

Adolph Opresteny and Gus Beyers left for Marlin, Falls County on a business trip.

Gus Jap, Fred Hahn and Clyde Baird went to Big Springs, Howard county, to pick cotton.

REV. DELAY COMING

Rev. Hub DeLay will arrive from Kansas next Tuesday to conduct the revival meeting at the Methodist church which will begin by Rev. H. C. Willis on Sunday night. Prof. Phobenberg will conduct the singing. Rev. DeLay is well known in Bryan as a revivalist and will be given a warm welcome.

Mr. and Mrs. H. E. Roethe, of Washington, D. C., who has been the guest of Mr. and Mrs. F. R. Jones for the past few days have returned to their home.

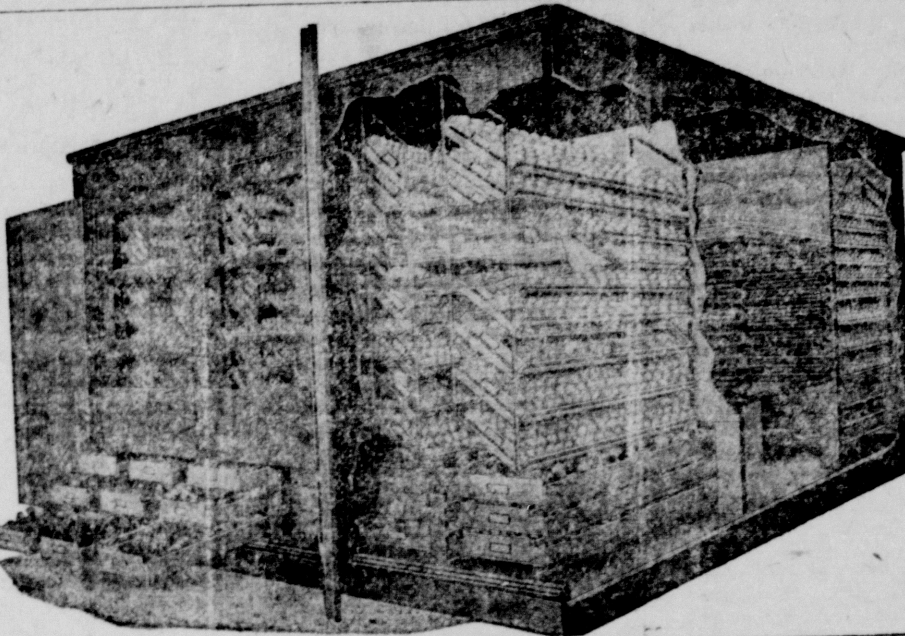

try will be imperiled, and we call upon all men and interests of the state to join with us in removing this menace." The recommendations were signed by James A. Smith, chairman; D. W. McMurray, L. S. McKamy, R. F. Crow, T. O. Walton, Walton Petet, R. C. Dickson and J. E. T. Peters.

Bryan Hatchery

Bryan, Texas, September 30, 1922

Dear Mr. Eberstadt:—

We will open our hatchery the beginning of December, probably December first. We would have started at least one of the machines by October, if we could have secured the eggs. We have orders for thousands of fall hatched baby chicks, that we can not furnish because we can not secure the eggs. The past year we hatched 90,000 eggs, which produced us 50,000 chicks that we shipped all over the Southwest. Last December we paid 7 cents each for good hatching eggs. Last June we paid 3 cents each for hatching eggs. We paid an average of 5 cents each for eggs last year. We expect to open for business this December first and run until the middle of June. There is always a good market for pullets raised from our eggs or baby chicks. We do not expect to handle anything but our strain. The past year we

had to turn back orders for several thousand dollars worth of baby chicks, that we could not supply. People that are interested in raising chickens can make good money, because there is a good market for first class eggs for six months of the year. The balance of the time the market price is very high. It might be well to state here that we expect to use eggs from our strain only. We expect to use eggs and pullets only that are produced from flocks that we have inspected, are our strain and headed by good males. We have to do this to safeguard our customers. We expect to enlarge our business each year, until we have an incubator capacity of 100,000 eggs. We expect to push White Leghorns, R. I. Reds and Barred Rocks and small numbers of White Wyandottes and White Rocks, and maybe one or two other popular breeds. We expect to make some arrangements to rear not less than 10,000 baby chicks on shares for us the coming year. We to furnish the chicks.

Yours Very Truly,

BRYAN HATCHERY, Bryan, Texas.

High Priced Cotton in 1923

The world will need fifteen million bales of American cotton next year at a good price. What are you going to raise, boll weevils or cotton? Kill your 1923 boll weevils in 1922. Let the cows do the work. Turn your cattle in the fields now. The farmers in this section have never had as good opportunity to rid their farms of boll weevils as this year. It's a long time until cotton planting time. The farmers of Southwest Texas have found by co-operation by destroying the cotton plant early they have no weevil the following year. In these counties where it rarely freezes we have fewer weevils than Brazos county. A boll weevil at this time of the year will live from 7 to 10 days without the cotton plant to live on. Later on nature takes care of him by hibernating during the winter, coming out when warm weather sets in ready for the cotton squares. Every live organization looking to the betterment of the farmer beginning with the U. S. Dept. of Agriculture to the local commercial clubs in every county, is behind this movement and unless you take advantage of facts found out by experiments and experience of other farmers you will be the loser as other communities all over the south are cooperating to make a good crop of cotton in 1923. It's up to you and your neighbor. Where land is plowed deep in early fall it has been found that root rot or cotton wilt will be done away with. Plant oats. For a corn crop to keep your land from washing, furnishes grazing for chickens, hogs, cattle and horses. Will make more feed per acre than the average corn crop. Feed this coming year will be high. Save buying feed by planting oats.

RED CROSS PRIZES FOR BABIES AT TABOR

The Brazos County Red Cross Health department was represented at the Tabor Community Fair on Friday, September 29th. Red Cross literature was distributed from the booth, in the form of pamphlets on "Health of the Family," "Your Baby," "Your Children," "Food for the Family," "How to Live," "How to Play," "Milk," etc. All day long the booth was crowded with children and their parents, asking questions in regard to health, and making evident the truth, that a new interest has been aroused in the subject of "Health" through the efforts of the Red Cross health work in Brazos County. A record of all the children weighed and measured was carefully kept, as it had been announced that the child, under 18 months of age, nearest perfect in height and weight would receive a prize. It was found that two babies held the same record of excellence, and a prize, a gold ring, was awarded to each of them. The winners were, Alex McCallum, Jr., of Tabor, age 13 months, height 30 inches weight 23 pounds; Regan Winn, Jr. of Edge, age 13

months, height 31-1/2 inches, weight 24-3/4 pounds. Each of these children lacked only one eighth of a pound of being perfect in weight and measurement according to their age.

POULTRY EXHIBITION AT BRYAN DEC. 6 TO 8

The Brazos County Poultry Association met Monday night at the Chamber of Commerce rooms with Vice President Will M. Jones presiding and Secretary W. O. Sanders at the desk. After some preliminaries Prof. T. J. Conway, of A. & M. College, made a talk on the grading and marketing of eggs. Prof. Conway took as the basis of his talk the conditions in California, showing the three grades of eggs were classified by weight and size and brought on the market much more money to the producer than mixed eggs. Mr. Conway had on exhibition eggs of different grades and made a most interesting explanation. The poultry raisers of Brazos county are missing much by not attending the meetings of the Poultry Association which meets monthly in Bryan. Superintendent C. E. Jenkins of the annual poultry show for Brazos county announced that the exhibition

BRAZOS COUNTY BOYS AND GIRLS CLUB DEPT

Club Notes and Farm News by County Agent C. L. Beason.

The club cinct Saturday to determine delegates to the Educational Encampment at Dallas during the State fair was one of the best we have ever had, there being almost fifty entries in corn, cotton, peanuts, and poultry. Poultry led with more than 30 entries, and Edge leading, in number, all the other clubs. Barring the livestock, which could not be exhibited on this occasion, the Edge club had practically a hundred percent exhibit. Club Leader Mangum is trying to make the name of the Edge club, "Blue Ribbon Forty," officially true. That Silver Tone talking machine would be fine for your new auditorium, Mr. Mangum. Keep those fine club members on the job. Hold the line for Brazos county. In the S. C. White Leghorn class, Ruth Alma Dixon of Millican took first place, Nina Mae Moore of Edge, second. Ella Blazek, club member at Edge, took first place with her Barred Rocks, Pauline Beard, also club member at Edge, taking second place. Susie Griffin, club member at Edge, won first and second place with Brown Leghorns and first with Bronze turkeys. Belle Moore, club member at Edge, won first and second place with Rhode Island Reds. Eugene Beard, Edge club member, took first place with his Anconas. Doris House, Edge club member, winning second place. Bernice Rosier, Edge club member, won second place with Bronze turkeys. In the Ferguson Yellow Dent contest, Waldon Orr, Edge club member, took first place with ten ears, reporting his yield at 42 bushels per acre. Lon George, Edge club member, took second place with Yellow Dent. With white corn, George Leighman, Edge club member, took first place, Cecil Brinkley, Tabor club member, taking second place. Charlie Nemec, Smetana club member, won first place with peanuts; T. W. George, Edge club member, taking second honors. Mr. A. K. Short, Agronomist, extension service, assisted by E. C. Martin and C. B. Martin, teachers in vocational agriculture, judged the corn exhibit. F. W. Kazmeier, manager of the Bryan Hatchery, and T. J. Conway, poultry husbandman, A. & M. College, judged the poultry exhibit. The judges declared the quality of birds exhibited to be very fine. Mr. Conway taking occasion to point out the excellent markings of the fine Bronze turkeys exhibited by the Edge club members. Mr. Kazmeier purchased, at a good price, all the White Leghorns the club members would sell. While the exhibit of poultry was good, yet it was found that some pens were disqualified on account of off markings, a thing many of the owners had never discovered. Many were heard to say that the work of the judges had taught them a helpful lesson in poultry raising. If the contest Saturday may be taken as an index, the Brazos County Poultry Association better get busy in order to take care of the birds that will be exhibited at the Brazos County Poultry Show, December 6-8.

A few days ago County Agent Beason had inquiry for five thousand standard bred S. C. White Leghorn pullets at a good price. If you can fill the order see your county agent who will put you in touch with proper parties. Raise purebred poultry in Brazos county. Swat the scrub. The fourth annual community fair held at Tabor last Friday marks another mile post on the road of community progress and community enterprise. It is generally more educational than the larger fairs which, oftentimes, are characterized by the spectacular and by commercialism. In the community exhibits one has time to focus his mind on tangible problems and receive suggestions helpful in future farm activities and enterprises. In the larger shows everything is "running in high" and time for sober reflection is short. Let's have more community fairs to boost a better agriculture for Brazos county. We

are of the opinion that these fairs should be announced far enough ahead of time so that the prizes offered would serve as incentives for greater production and better efforts rather than as rewards for collecting what has already been produced.

Club members desiring to send exhibits to the Dallas fair should have their exhibits sent in to Bryan not later than Thursday morning, October 5, as all exhibits must reach Dallas not later than Friday morning, October 6. This is an opportunity not only to exhibit your products and advertise them widely, but if the exhibit is good in both quality and type there are many chances to win some handsome prizes. As stated before, eight scholarships, good in the leading colleges of the state, will be awarded for best results in club work, four to boys and four to girls. The boy exhibiting the best ten ears of Yellow Dent will get \$20. The club member making the best production record with this variety will receive \$70. The cost of exhibits by club members is only transportation, the Dallas Fair Association taking care of all other expenses. Club members it is a wonderful opportunity for you. Do not neglect it.

It was stated that more fall plowing was done in Brazos county last fall than for many years. What is the report? Many farmers frankly admit that the yields this year have been far better than was expected. Such reports will continue to be the case with the farmers who prepare land early by turning under all vegetation before, terracing and using cover crops to prevent soil erosion. Only a few days remain in which vegetation may be turned under before frost. Let us make the best use of this time possible. Those who have tractors should keep them running day and night. Those who have only horses should see that they are in the collar from daylight till dark. Let's try it out, at least on a part of the farm. All admit that our production record per acre for Brazos county is too low, and yet few, perhaps none, are following a definite plan by which larger yields may be obtained. The Experiment Station advises that the fertility of our land may be built up by crop rotation, giving in proof of the statement the fact that during a period of eight years experiment plots have been brought up by crop rotation from a production of 29 bushels to more than 70 bushels per acre. Of the thousands of farmers in terracing demonstrations in Texas and Oklahoma two years ago, Jern Matthews, a farmer of Nacogdoches county, was the first and only one to say that his farm was becoming more productive year by year. When asked how he accounted for it, he replied that terracing, crop rotation, and the growing of legumes had done the work. No "book farming" about this. If we, in Brazos county, continue our habit of neglect and soil robbery, we shall not have to live long before we may bequeath to posterity lands, the farming of which will bring poverty to the tillers of the soil. The county agent wants at least ten men who will volunteer to try to grow a bale of cotton per acre and 50 bushels of corn per acre next year. Every assistance possible will be given, only asking in return that others be told of the work. Are you on? Let's get busy now. To produce the most corn possible the land should have fall preparation, turning under green vegetation to keep the land mellow after drenching rains.

Do not neglect the sowing of fall oats, etc., for winter grazing and cover crops. Some two or three years ago Mr. A. H. Leidigh of the Experiment Station stated that rye sown as a grazing crop the cost of sowing every day during the month of April. Do you need a better report than this? Try the grazing crop and report your success.

would take place on December 6 to 8 inclusive and that arrangements were being made to secure coops and a building for the largest poultry show ever given in Brazos county. At the next meeting Mr. Jenkins will speak on the subject: "Preparation of Fowls for Exhibition Purposes," and no poultry exhibitor should miss it.

Prof. C. M. Bryant of College gave a report on the Robertson County Fair at Franklin, where he was the judge of the poultry exhibit. Mr. Bryant said the exhibit was a success and nearly every poultry raiser will have a better exhibit next year.

Prof. F. W. Kazmeier, Hendrix Conway and Carl Wipprecht were called on for talks but begged to be excused on account of the lateness of the hour. Such veterans as County Agent C. L. Beason, Prof. A. W. Kinnard, George A. Adams and R. L. Jones were missed from the meeting. Later—it is noted that County Agent Beason was elsewhere receiving some "mysteries" and reported just as the association was adjourning. Of course there was nothing there to eat for the moment or Mr. Beason would have been on hand before the close of the meeting.

Quality Clothes For Boys at Moderate Prices

AUTO ACCIDENTS ON BRYAN HIGHWAY

(Navasota Examiner-Review)
There were several auto accidents last night on the Bryan road near here, fortunately none of them resulting in injury to anyone and only small damage was done to the cars. A truck belonging to the Bryan Ice factory, while returning to Bryan from this city late at night with a load of soda water from the Horlock plant here, turned over about four miles beyond the concrete road. Mr. Albert Upright, manager of the plant here was driving the truck at the time of the accident. He said this morning that his lights were dim and the heavy truck got into the loose gravel at the side of the road and turned over. Mr. Upright and a negro who was on the truck escaped without injury. One front wheel of the truck was demolished and the load of soda water was lost. A Ford coupe, the driver of which could not be ascertained today, also turned over at the railroad crossing just south of Millican. No one was hurt

and the machine was righted and proceeded on its way practically undamaged. It is said that a touring car was also pretty badly wrecked near Welborn late last night. It is not known here who the car belonged to but it is said that no one was hurt. Both front wheels were smashed and the top badly damaged, according to reports of travelers along the road early this morning.

OFFICERS CAPTURE "STILLS" IN BOTTOM

Sheriff L. E. Morehead and officer Offa Williams went to the Brazos Bottom in the lower part of the county Friday afternoon at 1 o'clock returning last night at midnight with two stills and some "white lightning" they captured in the Bottom near the Allen farm. One 10 gallon and the other a 5 gallon. Two negroes were arrested, Nat Woodard and Robert Sally. Woodard was placed in jail to await the action of the grand jury. Sally giving bond in the sum of \$500.

TABOR PEOPLE WANT BIG FAIR NEXT YEAR

TABOR, Texas, Oct. 5.—The Tabor community fair was one of the best the community has had. The exhibits were splendid. The house was decorated better than at any other time. The exhibits were attractively and tastefully arranged showing that those who had charge of this work had had training and experience. Those visiting county fairs reported that they were not in the Tabor class at all.

Tabor people are to be congratulated for their pride and knowledge in putting on such fairs Mr. Editor and everybody else, we want to invite you back to the next one. It has already started.

Today we had a splendid little rain and hot summer seems to be over. The Tabor schools all opened this morning with an enrollment of about 165 pupils. All field work being about completed, there is little excuse for absence from schools. Let's pull together and have the best school in the history of the district.

Miss Hettie Francis left last Friday night for Denton, where she enters the North Texas Normal College.

Willis Edge left last night for Waco where he enters Toby's Business College.

Buck McCallum left a few days ago for Houston where he takes treatment. We are hoping for him a quick return for Tabor.

Miss Louise Richardson of Rosebud is here to attend the Tabor high school. She will be with her uncle, Mr. Walter Armstrong.

Brown and George Harrison, Fred Locke and Fayette Wilson left last week for West Texas.

J. Harris, Joe Sample and Miss Ella Francis are driving new cars. The Tabor gin has ginned 714 bales of cotton today.

The Turks and George Paddy are fighting losing fights.

Oil excitement is growing in the Tabor community and one citizen says he has already dreamed he saw a gusher out there.

MR. THOMPSON HAS PASSED TO REWARD

The funeral of Mr. John Mack Thompson, who has been ill for some time occurred at the Reliance Cemetery on Saturday afternoon at 4 o'clock and was conducted by Rev. J. M. Bullock of Bryan. Mr. Thompson has been ill at his home on the Howell farm, six miles from Bryan on Wixon Creek and died Friday afternoon, September 29. He was born in Walker County and was 43 years only and had lived in Brazos county for five years. He is mourned by his wife, Mrs. Thompson and two brothers and one sister. The Eagle joins in offering sympathy to those who mourn but he was sure of his reward as he was a consistent member of the Baptist Church at Reliance and had given his life to God when he was called to his eternal home in the other world.

Dr. J. J. Taubenhaus has returned from a trip to Dallas.

LAMB SPRINGS TEST NOW DOWN 2,300 FEET

NAVASOTA, Texas, Sept. 29.—The Williams well just across the Navasota River in Brazos county, and about four miles from Lamb Springs, has reached a depth of 2,300 feet. At several different times during the process of drilling showings of gas which were regarded as very favorable have been encountered, though nothing of commercial importance has been developed. Indications are so good that the test will be continued and the prospects of getting oil are excellent. The well is shut down at present, but work will be resumed about October 1.

Inactive Liver

"I have had trouble with an inactive liver," wrote Mrs. S. Nichols, of 4412 Spencer St., Houston, Texas. "When I would get constipated, I would feel a light, dizzy feeling in my head. To get up in the morning with a lightness in the head and a trembly feeling is often a sign that the stomach is out of order. For this I took **Thedford's Black-Draught**, and without a doubt can say I have never found its equal in any liver medicine. It not only cleans the liver, but leaves you in such a good condition. I have used it a long time, when food does not seem to set well, or the stomach is a little sour."

If it isn't

Thedford's

it isn't

BLACK-DRAUGHT
Liver Medicine.

Coated Tongue or Acid Stomach

These troubles are the result of the decomposition of food in the stomach. This condition also causes bad breath, heartburn, indigestion, gas on the stomach, etc. and if not checked serious stomach troubles of a chronic nature may result.

Ware's Black Powder For All Stomach Disturbances

You can easily overcome these disorders by the use of Ware's Black Powder Tablets. After your next meal, take a teaspoonful of Ware's Black Powder or two of Ware's Black Powder Tablets followed by a little water.

This will neutralize the acids in your stomach and allow the digestive juices to do their work unimpeded. Your stomach troubles will then disappear. These powders are easy to take and perfectly harmless to even the most delicate stomach. Sold by all druggists, at 50c and \$1.00.

Send for Free Booklet on the life and all points of the stomach and how to care for them. A copy is yours for the asking.
